Assistant Commissioner for Patents

Sir:

Applicant responds to the Notice To File Missing Parts of Nonprovisional Application mailed June 19, 2001 (a copy of the Notice is enclosed herewith).

Applicant filed this application on April 20, 2001 and included with the original Utility Patent Application Transmittal the original **signed** Declaration and Power of Attorney (the signature page of the Declaration is page 4). A copy of the Declaration and Power of Attorney as filed is attached to this response.

The Notice to File Missing Parts of Nonprovisional Application states that the signatures of four inventors are missing from the signature page of the Declaration. These signatures are Katsuhiko Machida, Akichika Takano, Susumu Iwano and Yoshiyuki Yasuda and were referred to in the Verification of Translation of the

Certified Copy of Japanese Patent Application No. 2000-150061, a copy of which is enclosed. Upon closer examination of that document, it will be clear that three of the names listed on this document are the patent attorneys who prosecuted this application in Japan and the fourth is the name of a representative of the Assignee. The sole inventor in this case is Tadashi Nagaso whose signature is on the Declaration and Power of Attorney.

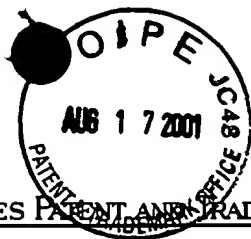

Applicant respectfully requests that this response and the attachments hereto satisfy the filing requirements and that the items and fees required by the Notice to File Missing Parts are deemed to have been completed upon the filing of the application.

Respectfully submitted,

David G. Conlin

REQUEST FOR CORRECTED FILING RECEIPT

Applicants respectfully request the correction of the Filing Receipt of the Japanese priority patent as follows:

Please delete the following inventors from this application:

Katsuhiko Machida

Akichika Takano

Susumu Iwano

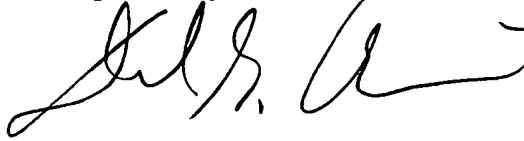

Yoshiyuki Yasuda

Tadashi Nagaso
U.S.S.No. 09/839,947
Page 2

Please see a copy of the Response to the Notice to File Missing Parts of Nonprovisional Application mailed June 19, 200. As stated therein, there is only one inventor in the present case (Tadashi Nagaso). The four inventors listed above are patent attorneys who prosecuted the Japanese application in Japan; they were listed on the priority document and mistakenly thought by the Examiner to be inventors.

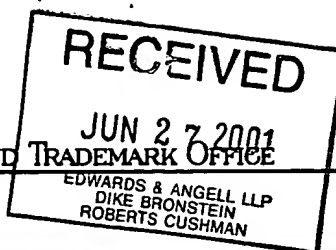

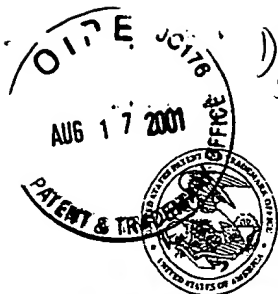

Applicants do not believe any fee is due. However, if for any reason a fee is owed, the Commissioner is hereby authorized and requested to charge Deposit Account No. 04-1105.

Respectfully submitted,

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15 (b).

PLEASE NOTE the following information about the Filing Receipt:

- The articles such as "a," "an" and "the" are not included as the first words in the title of an application. They are considered to be unnecessary to the understanding of the title.
- The words "new," "improved," "improvements in" or "relating to" are not included as first words in the title of an application because a patent application, by nature, is a new idea or improvement.
- The title may be truncated if it consists of more than 500 characters (letters and spaces combined).
- The docket number allows a maximum of 25 characters.
- If your application was submitted under 37 CFR 1.10, your filing date should be the "date in" found on the Express Mail label. If there is a discrepancy, you should submit a request for a corrected Filing Receipt along with a copy of the Express Mail label showing the "date in."
- The title is recorded in sentence case.

Any corrections that may need to be done to your Filing Receipt should be directed to:
